

IDRC hosts dinner for the Integrated HIV/HTN Team

15th March 2022- Some businesses go to great lengths to foster teamwork among their employees. For example, IDRC hosted a dinner for the Integrated HIV/HTN Project team at Pardis Restaurant in Kampala. It was a memorable night filled with laughter, fun, and delicious food for the entire team to enjoy. The dinner was a way for the Integrated HIV/HTN Project partners to express gratitude to the team for their contributions to the project.

The dinner provided opportunities for teammates to bond. Team members got to socialize and have a good time together. This small token of appreciation made the team feel valued and motivated.

(Integrated HIV/HTN Project partners: Ministry of Health Uganda (MOH), Uganda Heart Institute (UHI), Infectious Diseases Research Collaboration (IDRC) and Makerere University (MAK))
